

Dear Friend,  
Greeting from Nepal.

I am sorry for declining for a while and here I am again to say you hello.

There are many changes happen since I wrote you last.

Praise God ! for His promise ! He is unchangeable, victorious, accomplisher of promises. Once He said, "I will not leave you as orphans; I will come to you" (John 14:18). His promises making us standing still in the situations of difficulties. Right now we are facing very hard situation ever worse than in the time of Earthquake.

It have been nearly 70 days since then whole country is going without fuel when India disagree

I am at the somewhere in motor queue for 5Ltr. petrol since 3 days!

our new constitution written by sovereign's people of Nepal. They purposed to change the New constitution of Nepal in their interest but brave people's leaders denied. Since then they became like angry wolf and made rise up our people in the south parts of Nepal. Leaders from the south are from Indian background and do what India advise

them. Now these corrupted leaders making riot to the people from the south demanding to change the constitution.

Indian has stopped supplying fuel, Gas and other humanitarian materials like medicines and food. Now no one can imagine life without vehicles. It is very hard manage to visit one place to another places. I myself have spent on petrol queue for 22 hours and returned back at midnight without it when it run

Gas cylinders are at the roadside in queue for 7kg.of gas to be fill up!

out at the station. Furthermore, we have spent overnight in the street for 7kg gas shivering in the cold but couldn't get it and started to cook in the firewood. We are finding hard to cook for the orphans children. it had been using fire wood since 2 months. it is hard to get firewood as well. so life becoming very difficult in Nepal. slowly there is food shortage in the country when there is no transportation happening. most of the school and colleges are closed down. The present situation is worse than in the time of earthquake.

Every time we hear people's curses India for their evil work. They have been cruel towards Nepalese. they are taking advantage of land luck country. International community and human rights are not speaking against the Indian steps against Nepal. China from the North donated 13 hundred thousand liter petrol but do not have good road. however, Nepal received it and bringing it. This is on the same road on Tuesday 3rd there was bus accident and killed 45 people.

what happening to the earthquake victims

People are still living in the tent and under the tin roof huts. The winter is already here. people

Earthquake victims lives in the winter at villages!

living uncomfortable lives and started having common cold diseases. Furthermore, no government or any organization bringing food for them because of fuel shortage in the country. no any proper building started to build for the victims as government promised each family to donate two hundred thousand rupee to re-build their home.

Brother and sister we are praying to God so that leaders of both countries can talks each other to solve the current problems in Nepal; if the situation remains longer our country

would unsuccessful country in the world and people have to go through poverty.

What are the Churches doing in this current situation?

Of course, the current situation is affecting the missions of our Church. But we are not quite! praying for the current situations where we are. we are continue involving for our local church's worship and ministries; but unable to visit different parts of Nepal for the mission's works and Church re-building projects. We are to re-build three daughters Churches' worship building but have to stop it due to current situation in Nepal. we are always patient for our nation. Actually, we are to rebelled against the new constituent as it seems band for the Christian faith. *The constitution affirm Nepal as a secular republic. Until the abolition of the monarchy in 2008, Nepal was a Hindu kingdom with a constitutional monarch. The present constitution defines secularism as "religious and cultural freedom including protection of religion and culture prevalent since ancient time( Hindu religion)." The definition was added after protests by Hindu groups who saw secularism as a threat to their ancient religion. It is strongly band to convert Hindu to any other religions.* The interim constitution of Nepal was much better than this for Christian. However, we trust in God and do not fear with the new constitution; because we do not belongs to this world but to the heaven. However, brother and sister continue hold us in your prayer so we can stand form in our faith and the fight for current situations.

*-Pray for the peace between Indian and Nepal so we have easy access for fuel and foods.*

*-Pray for the nation and new government to rebuild this country as it is damaged by earthquake*

*-Pray for the Churches so we can be very image of Jesus to our neighbors in this hard situations*

Much love and every blessing to you and your Church,

Chitra and all the Saints of New life Church Kathmandu Nepal
